For the cause of
**ORPHANS &
EDUCATION**

Orphans are the collective responsibility of a society.

Hani A Farid
(General Secretary)

Consider the plight of an orphan, navigating a life devoid of care, guidance, and support. Without these crucial pillars, many may veer off course, posing challenges both for themselves and society at large. We are all responsible for the structures that support orphans and provide them with basic necessities like food, cloth, and shelter, along with quality education from KG to PG.

Anjuman Khairul Islam Orphanage and School stands as a beacon, offering shelter to countless children who have lost their parents or family due to calamities, accidents, or other tragedies.

Established in 1927, this institution, born from the foresight of our ancestors, continues its mission steadfastly. Over the past century, AKI has been the home of millions of orphans. Currently housing 1200 children, with plans to accommodate 1500 in the future, we aspire to extend our support beyond orphans to include underprivileged and destitute children as well.

Anjuman Khairul Islam Orphanage isn't merely a shelter; its a hub of education and skill development. Equipped with modern amenities, our orphanages boast sports fields, expert coaches, trainers, educational institutions, & vocational training centres.

SUCCESS STORIES

"In 2008, Meraj from Mahim, Mumbai, was only eight years old when his father passed away tragically. A year later, he lost his mother, leaving him and his siblings, Shadab 06 years and Masooda 05 years, alone in the world. It was a heart-wrenching experience for these three kids to live without their parents or any immediate family members. But Y & M AnjumanKhairul Islam came to their rescue and became their guardians, affectionately taking control of their family. Meraj remembers how other students in the orphanage would go home during the summer and Diwali holidays to be with their mothers and extended family members. Unfortunately, he and his siblings didn't have anyone to go home with, but one of their teachers, Ziauddin Sir, took them with him to his home during the vacations. Today, Meraj is a married man and works as a manager at Bajaj Finance, while his brother Shadab is working for a C.T. Scan Manufacturing Company. Sadly, their sister Masooda couldn't survive the brain tumour and recently passed away, despite the financial and medical support provided by AKI."

A journey of free education from Std. VI to MBA

Mohammad Farhan's father, a tailor in Mumbra, was hardly making ends meet and supporting the family of five members in a small rented room. The situation worsened when his father suffered from heart disease. The doctor had suggested an expensive operation; consequently, he lost his work. The financial situation worsened to the extent that it had become difficult for him and his siblings to continue their further education. His aunt admitted him to Std. 6th at the AnjumanKhairul Islam Orphanage in Panhalje. Little did he know that his first step here would prove to be the first step to success. He passed the 10th exam with 78%; afterwards, he passed the 12th exam with 86% in Science (PCB) at Mahabaleshwar Orphanage. With the help of Principal Shabana Shaikh, he was admitted to AnjumanKhairul Islam's Pune College. Today, he is in the final year of his Bachelor of Vocational Course in Software Development. Here too, Khairul Islam has arranged for his free accommodation and food. He wants to do an MBA from the PIMSE College of AnjumanKhairul Islam after his graduation. He hopes that AnjumanKhairul Islam will continue to guide and encourage him every step of the way. Parents are very happy and appreciate the support of AKI for their son's success.

TESTIMONIES

Ameera Aarif Mansoori Mahabaleshwar

I am preparing for NEET.

I have been admitted in the Orphanage in std. 4th and now am studying in 11th science. Here, I find the best environment for NEET exam preparation, and we have access to qualified teachers & speEdLab, a mobile app for NEET, which helps us a lot in our study.

Alshema Moin Shaikh Mahabaleshwar

During the distressed period of COVID-19, my parents enrolled me in the AnjumanKhairul Islam Mahabaleshwar orphanage. In 4 years, I have made many friends here. The teacher of the school teaches and prepares us for the world. Along with our academics, we are also taught about the Quran, prayers, and daily etiquette. I like my school and hostel very much. I want to become a scholar along with my studies.

Ab. Rehman Noor Aalam Panhalje

In AKI, I have learned that training is an essential part of education. It is an ideal training centre that emphasises not only listening, reading, and writing skills but also the basic education of linguistics and mathematics. Our Head Master, AltafNanosukur Sir, is a Maharashtra-certified counsellor and provides psychological tests and guidance along with regular studies.

Ashfaque Noor Hasan Shaikh Chandva

I will serve the community by becoming a scholar.

AnjumanKhairul Islam held my hand when the financial condition at home was not so good that I could complete my studies in Mumbai. Along with school studies, we learn recitation of the Quran and tajweed here. I have a strong desire to become a lawyer, and Aalim e Deen to serve the community.

Kaif Naushad Khan Bhiwandi

I am from Bhiwandi, and I was not as serious about my studies as all my peers in the locality. When I came to Chandve Orphanage, I was motivated by reading, writing, morals, & etiquette. InshaAllah, I hope that the AnjumanKhairul Islam Trust will continue to help me achieve my childhood dream of becoming a Chartered Accountant.

Shama Zubair Siddiqui Mahabaleshwar

Mahabaleshwar Orphanage provides the safest educational environment for girls. I was admitted to std. 7th, and now I am in 11th grade. I wish that AKI's SUPER 30, a scholar batch, and a residential project for NEET aspirants will help me become a doctor.

Ms. Suraiyya Usman Shaikh Mahabaleshwar

The AKI's orphanage is just like our home. I have many friends, and we enjoy every moment of life here. We follow a daily routine in the hostel with a friendly and affectionate warden and staff who encourage us to plan and achieve targets. Together, we live, study, and share each other's problems.
